

**Public Information and Education (P.I. & E.)
2015 Annual Report**

The Public Information and Education committee is a sub-committee of the CT EMS Advisory Board. After meeting regularly in 2014 to develop a scenario and script for a 90 second PSA (Public Service Announcement), as well as upgrade various OEMS flyers and brochures for the EMS Day at the State Capitol, the PIE Committee was left with an inability to maintain any progress as it was left with no funding sources or resources to accomplish its goals. Though the committee ceased meeting for most of 2015, the Committee Chair periodically worked to try and secure funding from various sources, and explored alternate options to creating the PSA.

The committee is determined to see this project through and is hopeful to secure the necessary funding.

Respectfully Submitted:

Robert Ziegler, Chairman
PI&E Committee
